

Term of Reference (TOR) created by Yayasan Gender Harmony (YGH):

INTERNATIONAL CONFERENCE ON GENDER EMPOWERMENT

TOWARDS PEACE AND HARMONY IN FAMILY, COMMUNITY AND NATION LIFE

***In collaboration with WUNRN (Women's UN Report Network)
Jakarta Design Centre (JDC), Jakarta, Indonesia, 20-22 November 2017***

***Theme of the International Conference on Gender Empowerment (ICGEm) 2017:
Gender Empowerment towards Peace and Harmony, Harmony of diversity in Unity!***

General Considerations:

In 2017 we are facing again the celebration of strong spirit of the world to combat violence against women. To be noted for the 26 years of the 16 Days of Activism Against Gender-Based Violence that has been celebrated since 1991. This is an international campaign chosen during November 25, as the International Day of Violence against Women and December 10, which is set as the International Human Rights Day. The two landmarks shows symbolically link between violence against women and human rights; so that to emphasize gender violence is a violation of human rights. The 16 Days Campaign has been used as an organizing strategy by individuals and groups around the world to call for the elimination of all forms of violence against women.

In Indonesia, Gender Harmony (GH) has been involved to the efforts formally since 2010 after long study during 2003-2005; 2006-2008 and 2008-2010 related to Gender-based violence (GBV). Several GH events were supported by the Ministry of Women Empowerment and Child Protection Republic of Indonesia as well as by UNFPA Indonesia. WUNRN (Women's UN Report Network) become partner to GH since 2013 – 2016 by conducting panel discussions on Gender Harmony during several United Nations conference and site events. During 2015, WUNRN came down to Indonesia to open GH International conference and Trainings.

GH has promoted the promising tools on GBV primary prevention for harmonious living with good testimonies from many parts of the world. GH published five (5) books and provided trainings for public and facilitator with several available modules on economic, health, social and politics; where gender violence is included in all material due to main goals of GH on creating peace and harmonious living. The essence of harmonious living with peace is becoming frequently mentioned, if not to say a demand already due to many evidence of bomb blasted, terrorism and hate speech that attack people, civilian as well as persistent of women assault, that even expanded to children assault and bullying. GH has put scientific platform to build peace and harmonic living among women and men, which accordingly also accurate to be implemented in the society, community and nation within various differences of diversity; and create unity among the diversity within family, community and even to the nation life.

This world is changing over the time; time is flying fast! However, it is somehow not what we want. Women and children are still vulnerable, while most families are stick on them. Partnership between men and women is needed and somehow it did not work as it should be. However the condition is becoming worse when conflicts and disputes among mostly men are around although the war is absent. Social media noted on how tension to life presents

nowadays and with the economic and or security crisis those becoming pressures to social life. Violence against women is becoming classic followed by children assaults and community disharmony while economic fluctuation and diversity among communities become matter – thus, the development and or practical activity on Peace & Harmony is needed!

Let's talk how we develop it within family, community and nation life as well as to the world! In 2015 GH put theme: My Harmony My World! Now we chose to highlight the Peace and Harmony! Gender Harmony (GH) is ready to share the findings and knowledge on how to build resilience over stressors, preventing conflict and perform transformation within partnership towards unity within diversity! Many times we faced diversity, the harmony is there; however somehow in the higher tension and difficulties, the disharmony is exposed instead and the unity became the risk! Let's prove it we can!

This conference provides discussion, sharing experiences and training on: How to prevent Gender-based Violence; Developing transformation, Combating, stereotyping, harmony in unity, a harmony communication, Argumentation Rules and Peace application, Livelihood skills for welfare etc. Seminar and Harmony facilitator training shall be performed back to back for 3 days with keynote speech, presentations, practice, role-play, group discussion, partnership games and site visits. The Conference package includes: Certificate, Conference material, Goodie Bag, 3 night stay twin sharing hotel*3, meals during the conference & training, transportation during site visit and gala dinner on the closing ceremony at the outdoor lake restaurant

It is hoped that afterwards there would be more strengthening development to create peace and harmony in the family, community and nation by emphasizing the self-resilience of building peace and harmony, proper peaceful mindset of diversity to unity, systematic strategy to end violence against women, increasing solidarity of gender international on anti violence against women and girls; and implementing GH tools to build peace and harmony using various media on ICT (Information, Communication and Technology).

The Goals:

To highlight the need of peace and harmony in relation to the world celebration of Anti Gender-based violence campaign and Human Rights Day in 2017 as well as in general for supporting the nation harmony in unity by keynote speeches, panel discussion; dialogue and Training for GH Facilitators.
